

EXCESS mortality (all-cause mortality) in selected high-vaccinated nations

Canadian data was not understandable and collected fully for meaningful interpretation but concentrate on the 0% horizontal line for the excess mortality graph

High-vaccinated nations:

Share of people who completed the initial COVID-19 vaccination protocol

Total number of people who received all doses prescribed by the initial vaccination protocol, divided by the total population of the country.

Excess mortality: Deaths from all causes compared to projection based on previous years

The percentage difference between the reported number of weekly or monthly deaths in 2020–2022 and the projected number of deaths for the same period based on previous years. The reported number might not count all deaths that occurred due to incomplete coverage and delays in reporting.
